## STEP-BY-STEP INSTRUCTIONS

### Step 1: Assemble the Basket Frame

1. Insert the three black rods into one side of the basket.
2. Place the other half of the basket on top, ensuring it is fully attached.

### Step 2: Secure the Basket Frame

1. Twist the rods to align the holes properly before inserting the bolts.
2. Take the Six M4x10mm screws (short) and screw them into the rod inserts of the basket using a hex key.

# STEP-BY-STEP INSTRUCTIONS

## Step 3: Install the Connect+ Attachment

1. Place the Connect+ latch attachment inside the basket to rest on top of the 6 tabs of the basket, ensuring the Connect+ mechanism is positioned towards the front. (see figure 1 for reference. Note: figure is from small basket accessory)
2. Place the black basket plate on top of the Connect+ attachment, inside the constructed basket, and align the holes.
3. Take the six phillips head screws and insert them through the basket plate inserts, Connect+ tab inserts and thread screws into the basket frame to ensure all three pieces (basket frame, Connect+ Latch and basket plate) are connected. (Optional: Use washers for the two front and rear bolts)

## Step 4: Attach the Basket Lining and Cargo Net

1. Using the velcro flaps, secure the basket lining along the edge of the basket.
2. Attach the cargo net over the top for added security.

## Step 5: Attach the Basket to Your Bike

1. Use the Connect+ system to attach the basket securely.
2. Push down until you hear a click, confirming it is locked in place.

## Step 6: Removing the Basket

1. To remove the basket, pull the Connect+ latch located under the basket.
2. Lift the basket off the rack.

## Final Steps & Review

- Ensure all bolts are tightened securely.
- Test the basket attachment by pulling gently to confirm it is locked in place.
